Lockport Council Building Codes: 'Full Conformity'

By Marge Ratcliffe

LOCKPORT -- The City Council voted Monday night to issue only building permits that are in full conformity with the building code.

This applies to modular homes, which have recently come under much discussion at council meetings. One such home had been built prior to this vote. Grant Lawrence, city zoning officer, had asked the council to make a firm commitment to either approve all or none of the homes, and not to give approval on a piecemeal basis.

LWHS youths are honored

LOCKPORT -- Two students at Lockport West High School have been awarded letters of Commendation honoring them for their high performance on the 1970 National Merit Scholarship Qualifying Test. Principal William R. Rutter has announced. The two commended students, Joann I. Niemiec and Craig L. Stout are among 35,000 students in the United States who scored in the upper 2 per cent of those who are expected to graduate from high school in 1971. The commended students rank just below the 14,750 Semifinalists announced in September by the National Merit Scholarship Corporation.

The council also voted to install up to five street lights on Canal Street between Tenth and Division streets and to erect a light at the main entrance to Ludwig School.

In other business the council: Heard a report on a proposed stop light at Seventh Street and Route 7. This may be done next year in co-operation with the state.

Discussed a proposed joint purchasing plan with the state entailing the purchase of squad cars for the police department. They asked city attorney Eugene Korst to investigate the matter.

Proclaimed Oct. 4-11 as National Employ the Physically Handicapped Week and Oct. 16-17 as Lions Club Candy Day for the Blind.

Endorsed the anti-pollution bond issue to be presented to the voters Nov. 3. Mayor George Nordstrom urged all councilmen to attend a public hearing Oct. 20 in Joliet on this matter.

Learned that the high school parking problems have improved 5,000% according to Mayor Nordstrom. The Mayor asked the council to consider making Madison Street one way south and Jefferson Street one way north to further alleviate the parking problems. No action was taken.

Heard Alderman Richard Cronholm ask the Council to consider printing agen-

das and sticking with them. The council decided not to print a regular agenda but to no longer suspend the rules at the beginning of a meeting to allow residents time to speak. They will be given speaking time under new business or when the council's business has been completed.

Band will appear in Mississippi

LOCKPORT -- The Symphonic Band, the first band among Lockport Kelvin Grove's instrumental music aggregations will be performing on March 13, 1971 at the Instrumental Conductors' Conference at Hattiesburg, Mississippi. "This performance is the ultimate honor for any band since only one grade school band is selected from all over the United States and Canada" said Pete Pappas, band director at Kelvin Grove. The Symphonic Band will perform a 90 minute concert for 1000 directors attending the clinic. Before the clinic judges hear the audition tapes, each band considered submits recommendations from other band directors that have heard the group perform during the past year. After that, a tape is sent to the panel of clinic judges for their consideration.

Strike still ties up work on L-W addition

NEW LENOX -- Permission was granted Lincoln-Way High School to have workmen cover large switchboards in the Lincoln-Way High School addition that have been exposed to the weather since Aug. 24.

What Joe Kruzich, the school's superintendent, is striving for is permission to get the walls finished and the roof on before winter snow and cold can add to the damage that fall rains and winds have wrought. So far he has had no success.

The Lincoln-Way addition, intended to house freshmen and relieve the pressure of a steadily growing enrollment, is the victim of

a union rule. Supt. Kruzich was informed by the contractor Jack Mortenson, of the construction company bearing his name.

The rule called for two standby carpenters on the job. The floors had been poured and the work underway involved bricklaying, steel erecting, and electrical and plumbing installations. Carpenters had built forms for concrete pouring, but work to be completed was halted Aug. 24.

Will County carpenters went out on strike Aug. 24, and put pickets on all jobs. The effect was to keep all the other crafts from working.

At Lincoln-Way a crack developed in one

of the new walls late last week. The steel door and window frames — their prime coat of paint having been rubbed through in handling — are gathering rust as are some of the beams.

On another wall, concrete blocks have caved in at the bottom, so it appears the wall will have to be replaced.

School officials fear that if the area is hit by high winds, some of the walls might fall. Where the roof trusses are installed the walls have some support, but not all of them are in.

The basement section has been flooded

several times since the strike began. School officials have put in a pump to drain the underground section.

One of the minor losses made its own monument. Heavy rains thoroughly drenched a supply of cement piled up in paper bags leaving a 10-ton souvenir that someone will have to move eventually.

Lincoln-Way school officials hope the building will be ready for use by next fall.

The Lincoln-Way addition is not the only project that has been held up by the carpenter's strike. The Silver Cross Hospital addition in Joliet is also stymied.

Tuttle asks help in pollution curb

MOKENA -- A letter urging Mokena citizens to assist the village board in its endeavors to curb pollution has been mailed by Mayor Will Tuttle.

Complete utilization of the garbage and refuse collection service will accomplish much in combatting pollution, the mayor says.

"With today's stress on environmental pollution," the mayor said, "the State of Illinois has enacted a statute which prohibits all open burning. The Village of Mokena will enforce all local ordinances pertaining to burning. Tree leaves, for instance, no longer should be burned. Large plastic bags are an excellent method to use in disposing leaves -- fill them, tie them, and put them at the curb on the regular pick-up days. Even old appliances, when no longer wanted or usable, will be removed if set out for pick up."

Only village approved incinerators will be allowed when commercial establishments burn paper, cardboard and packing, the mayor said in his letter. Such incinerators, he added, cannot be

used to burn garbage or any material which produces obnoxious odors.

"Only one warning will be given violators," Mayor Tuttle emphasized. "Repeated violations will result in citations being issued."

The mayor said he has a letter from the Mokena Wall Paper Co. which hopes to have its steam power system, now fueled with coal, converted to gas by the first of the year. This will eliminate a source of pollution that has evoked numerous complaints over the years. The company has made improvements in the past few months it was said, and when the conversion to gas is completed, there will be no smoke.

The mayor said the village appreciates the cooperation of plant officials in ending this source of pollution.

He explained that the incinerators recommended for commercial establishments to use to dispose of paper and cartons do not emit smoke.

The village now sends out the bills for rubbish collections with the sewer and water bills. The minimum charge

for collecting garbage is \$2 a month. According to Mayor Tuttle, this amounts to a saving of 10 to 15 per cent for the average dwelling, through elimination of the cost of direct billing by the disposal firm. Nuway Disposal has the contract.

Residents also are reminded that the Dutch elm disease is still taking its toll of elm trees. Owners of diseased

trees are asked to have them removed and replaced with kinds that are not susceptible to this blight. The state allows municipalities to enact ordinances that permit them to force removal of dying trees.

"It is my hope," the mayor said, "that the citizens of Mokena will meet this problem with voluntary action, at once."

Guidelines sought for youth group

MOKENA — The Mokena Youth Commission, appointed by Mayor Will Tuttle and confirmed by the village board, have elected John Weber as chairman. Weber has been active in Boy Scout work for many years.

The organization meeting was held last Wednesday night in the village hall with all nine members present. The commission decided to send out a questionnaire to the some 300 high school students in the Mokena area to get their ideas and suggestions as to the course the commission should take.

Mrs. Nancy Osborne and Mrs. Marcella Lehmann were named as the committee to prepare the and send out the questionnaire which the commission will use in determining what the youth of the community need.

Mayor Tuttle, who was present as an ex-officio member of the committee, has suggested that if a youth center is one of the

things required that the first floor of the district library building could be remodeled to fit the purpose without too much cost. The library occupies the ground floor.

It is believed the village could find the money to get a youth center established, the mayor said, if the committee and the youngsters involved, decide it is needed.

While this first questionnaire is directed to youngsters of high school age, the commission plans development of programs for younger children too.

The territory embraced is all the Mokena area, including Arbory and Arbory Hills, Rolling Heights, Sunny Acres and other surrounding developments.

The other members of the committee are: Hans Mueller, LeRoy Harling, Mrs. Ethel Fee, Mrs. Doris Peterson, Donald Teague and Marvin Bormet.

Annexation discussed at Arbury Hills meeting

by Marie Hovi

ARBURY HILLS — At various intervals over the past several years there has been talk of the possible annexation of Arbury Hills to Mokena or Frankfort.

Last week the subject was discussed at length at a meeting held in Arbury Hills school gymnasium under the auspices of the Arbury Hills Civic Association.

Arthur Myren, of the Northeastern Illinois Planning Commission, spoke in general terms on the advantages and the disadvantages of any annexation.

The advantages include additional police protection; better quality water at cheaper rates; garbage collection; street maintenance; street lights and signs; library, tree planting, building and zoning codes and extra-territorial jurisdiction.

Disadvantages listed include: higher taxes, possible special assessments, more miscellaneous taxes, dog license fees, car sticker fees, increased construction costs, loss of privacy and perhaps a higher fee for garbage collections.

For those favoring a waiting game it was pointed out

that timing is a gamble — waiting could result in more problems or less.

The meeting was orderly, despite strong feelings on all three sides of the question.

Numerous questions were asked, some of which remained unanswered.

Before any action is taken in any way relative to annexation further study and

more information will be necessary, it was agreed.

Representatives of the Mokena village board present at the meeting were Edward Haislet, Anthony Dina and Chester Ebert.

State nurseries sell stocks

by Virginia Sass

SOUTHWEST — Application blanks and price lists for tree planting stock from state nurseries may be obtained now from the Will-South Cook Soil and Water Conservation District. All state stock is available for Spring 1971 planting only. Orders will be accepted between September 1, 1970 and April 16, 1971. The minimum order is 500 plants of any one species. William Stelter,

district chairman, urges everyone to get orders in early to avoid disappointment from depleted stocks.

The state furnished stock at cost to encourage reforestation. Applicants must comply with the Illinois state law which states: "Trees . . . (are to be planted on rural land) . . . for the purposes of growing forest products, for establishing new forests or shelterbelts or improving existing forests, or game food and cover, for control of soil erosion, but not for ornamental, shade tree or landscape purposes. Planting stock obtained or purchased from state forest nurseries may be cut and sold as Christmas trees and greens, posts, pulpwood, ties, poles, logs, and other products but they cannot be removed or resold with the roots attached. All areas planted with stock secured from State nurseries must be protected from fire, do-

mestic livestock grazing, and trespass."

Species available and recommended for the northern portion of the state are: ash, autumn olive, black alder, black locust, black walnut, bush honeysuckle, cottonwood, dogwood, lespedeza, multiflora rose, jack pine, sycamore, pin oak, red oak, white oak, red cedar, red pine, scotch pine and white pine.

In addition to the Wildlife Packet (100 White Pine, 100 Red Pine, 100 Silky Dogwood, 100 Bush Honeysuckle; 100 Aut. Olive) and the Mixed Pine Packet (100 White Pine; 100 Red Pine), there are three new packets this year: Special Conservation Packet (25 Aut. Olive; 25 Ash; 25 Pin Oak; 25 Red Cedar; 25 Red Bud), Walnut Packet (100 Walnut seedlings), and School Packet (25 Aut. Olive; 25 White Oak; 25 Pin Oak; 25 Red Oak; 25 Red Bud).

Village officers at state meeting

SOUTHWEST — Village officials from New Lenox, Frankfort and Mokena have been in Springfield since Saturday for the annual meeting of the Illinois Municipal League. Most of those in attendance came home Tuesday.

Because of this session the Frankfort village board changed its meeting date from Oct. 5 to Oct. 12. The Mokena board is not affected because it does not meet until the second Tuesday, and the New Lenox board — first and third Wednesdays — meets tonight.

Attending the municipal league meeting from Mokena were Trustees Lyman Teague and Kenneth Warning, Village Engineer George Barber and Jim Clarage, village planner.

The entire board at Frankfort, Mayor Glenn Warning, Trustees Robert Dean, Wilbert Klier, Lynn Kohlhausen, Allan Mager, Michael McAndrew and Howard G. Osamus, attended the meeting, as did Village Attorney August Santoro. Village

Clerk Walter Pfaff had other commitments.

Attending from New Lenox were Mayor Joseph Hartung, Village Clerk Marjorie Wajchert; Village Manager Roy Dowle and Trustees Earl Schroeder, Robert Wysock, Jack Batson, Francis Miller and James Warning. Trustee Howard Hutchins has not been feeling well.

LOCKPORT — Laura Pytlewski and Linda Wrobel, members of the Lockport Girl Scout Troop, are the only scouts of the area to have recently completed the requirements for life saving badges.

Valley View ponders site

by Louise Schaller

ROMEONVILLE — Board members of Valley View School District 96 recently discussed land donated for a new school in Indian Oaks subdivision. Two sites have been donated by Hoffman Rosner Company, but it was felt neither site is large enough for a school. Board members considered combining the two sites for this purpose.

Community groups have been urged to discuss with board members and school officials possible recreation ideas to occupy students when they are on their 15-day vacations.

Additional title insurance must be obtained by the District according to Eugene Korst, board attorney. This is a requisite deemed necessary by the Illinois Building Commission. Korst was

asked by board members to obtain rates from Pioneer Title and Trust Company to be compared with rates from Chicago Title and Trust Company.

Bids are being sought for black topping Ridge View and Brook View schools. Air conditioning at Park View will be done by the low bidder, Perella Construction Company.

Robert Noethen, board secretary, said he was "upset" about the failure of Fazio Insurance Company to keep the terms of a verbal agreement made with Paul Swinford, business manager.

The problem concerns a fire at Brook View School. Inability to use a room incurred expense for renting other facilities. Students who had occupied the room could not be put in other rooms as the children were in a special education class. Noethen called for a review of the insurance program, because "this isn't the first time we have been disappointed by this insurance company." Fazio will be requested to appear at the next board meeting.

A resolution was read and passed that board members will be defended in law suits that may arise as a result of their actions as

board members.

It also was resolved that no charge will be made for district field trips.

The next meeting will be Oct. 12 at 7:30 p.m. in the library of Park View school.

Dist. 92 tax vote is Oct. 17

LOCKPORT — Ludwig-Reed-Walsh Grade School District 92 will have an educational tax rate referendum from noon to 7 p.m. Saturday, Oct. 17, at Ludwig School. The school will be the only polling place.

Officials of the school district are trying to solve the district's financial problems. They estimate the schools will be on second year tax warrants by the end of the year.

The proposed tax increase is 67 cents per \$100 assessed valuation. The last increase was passed in 1958. Since that time, two new schools have been added in the district.

The school's board members have requested citizen involvement in planning a new junior high school. This issue will be presented after it has been carefully planned.

Two injured in crash

FRANKFORT — Only two persons were injured out of 58 involved in a school-bus and station wagon collision on U.S. 30 near Elsner

Road, the western boundary of Frankfort.

The two injured were Mrs. Ronald Simrell, 34, of 341 W. Oregon St., Frankfort,

and her 3-year-old son Jody. The driver of the school bus, Paul Brown, 25, of 11133 Revere Rd., Mokena, and the 54 Lincoln-Way High school students aboard, were shaken but apparently escaped injury and the other person was the woman driver of a car who had halted on Elsner Rd. for the U.S. 30 stop sign.

Mrs. Simrell, heading east, had been about to make a right turn onto Elsner Road, according to police reports, but when she saw that the school bus was coming fast behind her she straightened out and stayed on U.S. 30. Had she made the turn, she said afterward, her car would have been hurled into the car waiting on Elsner.

Brown, a teacher at Lincoln-Way who also drives a school bus, was ticketed on a charge of failure to reduce speed.

Mrs. Simrell said a published report of the accident was wrong in that it said she had reportedly halted on U.S. 30 to make a turn. She said her car had never stopped moving. Mrs. Simrell reportedly suffered a whiplash injury and her 3-year-old son injured his throat. Mother and son were treated at Silver Cross and released.

Congratulations, 4-H'ers

This is 4-H Week.

For many years Illinois 4-H'ers have pledged their head, heart, hands and health to better living for their club, community and country.

They have done wonders in spreading the story of better land care, better stock breeding and better community living, and one lasting benefit of 4-H training has been a more responsible attitude toward individual behavior.

4-H now is moving into cities and tackling urban problems. The theme for this year's 4-H Week — "We Care!" reflects this new interest.

Illinois 4-H'ers are involved in activities that will improve the environment, promote good nutrition and health, strengthen family life and promote overall community betterment. City children as well as their country cousins are joining the ranks of 4-H'ers who share the "We Care!" message. Illinois 4-H'ers join nearly four million other 4-H'ers across the nation in observing National 4-H Week.

Today, more than one-third of the 77,000 4-H members of Illinois live on farms. Another one-third, nearly 26,000, live in small towns and cities with a population of less than 10,000. The remaining 17,000 4-H'ers live in towns and cities with a population greater than 10,000.

Many 4-H clubs have planned to attend city council meetings and anti-pollution hearings to become familiar with pending anti-pollution bills and ordinances.

Some clubs will conduct letter writing campaigns or petition industrialists, mayors, governors, congressmen or senators. Other clubs will conduct cleanups of local areas that need improvement. Many will put up information booths in business sections and shopping centers to explain environmental problems. Others will hand out anti-pollution leaflets, articles and litter bags, sell buttons and bumper stickers and get signatures for their petitions.

4-H'ers care about nutrition too. Some clubs will organize information programs to explain the advantages of the food stamp plan. Other clubs will set up a career exploration day for high school dropouts, to help them earn better livings and get more personal satisfaction from their jobs.

But in order to help 4-H'ers successfully coordinate their campaigns a great deal of cooperation must be given by adults. In essence, adults as well as 4-H'ers must have a "We Care!" attitude.

We are thankful for the work of area 4-H Clubs and congratulate their members on the job they are doing toward making our country a good place to live.

Matter of importance

The District 205 School Board has initiated a series of Open Study Sessions, designed to encourage dialogue in the community.

The meetings are on the first and third Thursdays of the month. The next one is planned for Thursday, Oct. 15, at the Little Theater at Lockport East High School.

Although this plan equates to two more meetings a month, residents who "cannot find the time" to attend might remember it also represents additional meetings for the board, and members of the staff and administration.

The board will not, and in fact cannot, take action at these meetings. They are primarily for discussion, points of information, and the opportunity to study several aspects of a given situation.

At the most recent session, the district superintendent, Lloyd Harrell made the statement, "the best investment we can make today is in education... the return is terrific."

Are you willing to invest a little time to try and better understand the many problems the school board faces? Perhaps, if enough time is invested and understanding is reached, the community might be persuaded to invest tax dollars.

The meetings start at 7 p.m. and end at 10 p.m. That's three hours out of your day, and six hours out of a month. What else are you doing that's so important?

Kudos for LFD

The Lockport Township Volunteer Fire Department and the Lockport Fire District, as well as everyone connected with it are to be congratulated both on their 75th Anniversary and the success of their five-day celebration.

The parade was well-run and enormous. Granted, perfect weather helped, but even the most desirable fall day cannot make a bad parade into a good one. Sunday's parade would have been a success in a downpour, because it had spirit.

Lockport Fire-fighters enjoy a great deal of community support and it is well deserved. They are efficient, dedicated, and are one of the finest and best equipped departments in the area. We are lucky to have them.

The fireworks display at Dellwood Park was attended and enjoyed by several thousand people. It was the perfect ending for a great celebration.

Don't wait for Fire Prevention Week to practice Fire Prevention.

-0-

Fire is everyone's problem. Fire Prevention is everyone's duty.

To see ourselves . . .

Residents of Lemont Township this week have a unique opportunity to, in the words of Robert Burns, "see ourselves as others see us."

With off-year elections approaching Nov. 3, Charles B. Cleveland, editorial director and political analyst for radio station WIND, decided to survey the views of what he considered the average, "middle American" Illinois resident.

For his survey, he chose Lemont Township. A spokesman in his office said one of Cleveland's reasons was the fast growth of the township in recent years and months due to industry expansion in the area.

Cleveland surveyed 300 people by mail and talked to others in person. Those surveyed were asked, "If the

election were held today, who would you vote for in the races for senator, state treasurer, county clerk, county board of commissioners president, assessor and other offices with close races?"

Residents interviewed in person also were asked, "If the election for president were held today, would you vote for Nixon, Humphrey or Wallace?" Interviewees, of course, were asked for whom they voted in 1968.

The results of the survey are being discussed on the air each day this week at 7:07 a.m. and 5:28 p.m. WIND is located at 5:16 on the radio dial.

We suggest township residents find time to tune in at one of the two times each day. The results may be surprising.

The Southwest Graphic welcomes any and all news concerning club and individual activities and extends this word of appreciation to all who have sent stories or photographs in the past. We would like to print it all, but space limitations make this impossible. In order to make room for your story, we should have the information before the event but no later than Friday of the week in which it occurs. We will not be able to publish news more than a week old. Stories then will be ranked according to their news value. You may mail or call in information to our offices in Lemont, Lockport or Mokena.

Proposed Constitution of the State

(This is the fourth installment of the Proposed Constitution of the State of Illinois adopted on the third day of September, Nineteen Hundred and Seventy, by the Sixth Illinois Constitutional Convention at the Old State Capitol in the City of Springfield. Sec. 1. Officers: The Executive Branch shall include a Governor, Lieutenant Governor, Attorney General, Secretary of State, Comptroller and Treasurer elected by the electors of the State. They shall keep the public records and maintain a residence at the seat of government during their terms of office.

Sec. 2. Terms: These elected officers of the Executive Branch shall hold office for four years beginning on the second Monday of January after their election and, except in the case of the Lieutenant Governor, until their successors are qualified. They shall be elected at the general election in 1978 and every four years thereafter.

Sec. 3. Eligibility: To be eligible to hold the office of Governor, Lieutenant Governor, Attorney General, Secretary of State, Comptroller or Treasurer, a person must be a United States citizen, at least 25 years old, and a resident of this State for the three years preceding his election.

Sec. 4. Joint Election: In the general election for Governor and Lieutenant Governor, one vote shall be cast jointly for the candidate nominated by the same political party or petition. The General Assembly may provide by law for the joint nomination of candidates for Governor and Lieutenant Governor.

Sec. 5. Canvass — Contests: The election returns for executive offices shall be sealed and transmitted to the Secretary of State, or other person or body provided by law, who shall examine and consolidate the returns. The person having the highest number of votes for an office shall be declared elected. If two or more persons have an equal and the highest number of votes for an office, they shall draw lots to determine which of them shall be declared elected. Election contests shall be decided by the courts in a manner provided by law.

Sec. 6. Gubernatorial Succession: (a) In the event of a vacancy, the order of succession to the office of Governor or to the position of Acting Governor shall be the Lieutenant Governor, the elected Attorney General, the elected Secretary of State, and then as provided by law.

(b) If the Governor is unable to serve because of death, conviction on impeachment, failure to qualify, resignation or other disability, the office of Governor shall be filled by the officer next in line of succession for the remainder of

the term or until the disability is removed.

(c) Whenever the Governor determines that he may be seriously impeded in the exercise of his powers, he shall so notify the Secretary of State and the officer next in line of succession. The latter shall thereafter become Acting Governor with the duties and powers of Governor. When the Governor is prepared to resume office, he shall do so by notifying the Secretary of State and the Acting Governor.

(d) The General Assembly by law shall specify by whom and by what procedures the ability of the Governor to serve or to resume office may be questioned and determined. The Supreme Court shall have original exclusive jurisdiction to review such a law and any such determination and, in the absence of such a law, shall make the determination under such rules as it may adopt.

Sec. 7. Vacancies In Other Elective Offices: If the Attorney General, Secretary of State, Comptroller or Treasurer fails to qualify or if his office becomes vacant, the Governor shall fill the office by appointment. The appointee shall hold office until an elected officer qualifies or until a successor is elected and qualified as may be provided by law and shall be subject to removal by the Governor. If the Lieutenant Governor fails to qualify or if his office becomes vacant, it shall remain vacant until the end of the term.

Sec. 8. Governor — Supreme Executive Power: The Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws.

Sec. 9. Governor — Appointing Power: (a) The Governor shall nominate and, by and with the advice and consent of the Senate, a majority of the members elected concurring by record vote, shall appoint all officers whose election or appointment is not otherwise provided for. Any nomination not acted upon by the Senate within 60 session days after the receipt thereof shall be deemed to have received the advice and consent of the Senate. The General Assembly shall have no power to elect or appoint officers of the Executive Branch.

(b) If, during a recess of the Senate, there is a vacancy in an office filled by appointment by the Governor by and with the advice and consent of the Senate, the Governor shall make a temporary appointment until the next meeting of the Senate, when he shall make a nomination to fill such office.

(c) No person rejected by the Senate for an office shall, except at the Senate's request, be nominated again for that office at the same session or be appointed to that office during a recess of that Senate.

Sec. 10. Governor — Removals: The Governor may remove for incompetence, neglect of duty, or malfeasance in office any officer

who may be appointed by the Governor.

Sec. 11. Governor — Agency Reorganization: The Governor, by Executive Order, may reassign functions among or reorganize executive agencies which are directly responsible to him. If such a reassignment or reorganization would contravene a statute, the Executive Order shall be delivered to the General Assembly. If the General Assembly is in annual session and if the Executive Order is delivered on or before April, the General Assembly shall consider the Executive Order at that annual session. If the General Assembly is not in annual session or if the Executive Order is delivered after April 1, the General Assembly shall consider the Executive Order at its next annual session, in which case the Executive Order shall be deemed to have been delivered on the first day of that

annual session. Such an Executive Order shall not become effective if, within 60 calendar days after its delivery to the General Assembly, either house disapproves the Executive Order by the record vote of a majority of the members elected. An Executive Order not so disapproved shall become effective by its terms but not less than 60 calendar days after its delivery to the General Assembly.

Sec. 12. Governor — Pardons: The Governor may grant reprieves, commutations and pardons, after conviction, for all offenses on

such terms as he thinks proper. The manner of applying therefore may be regulated by law.

38 pass GED test

SOUTHWEST — Boyd R. Bucher, superintendent, educational service region, has announced that 38 high school equivalency diplomas have been issued in Will County during the past month. A total of 625 Will County residents were issued this diploma during the past year.

Bucher urges all qualified applicants, who have been unable to complete high school, to come to his office in the County Building to make arrangements to take this test. The following qualifications are necessary: The applicant must be 19 years of age or over and must have maintained residence in Illinois for at least one year immediately preceding application.

Servicemen and veterans, over 19 years of age, who have previously passed the GED tests through the United States Armed Forces Institute, Official GED Centers in other States, or Veterans' Administration Hospitals, should file the application, Form GED 10A, accompanied by the official GED Test Report, with the Superintendent Educational Service Region of the County in which the applicant has maintained residence.

Bucher stressed that the General Equivalency Diploma in no way takes the place

of a regular high school education, but it is designed to appraise the educational development of applicants who were unable to complete their formal education and is accepted by most colleges and places of employment.

Examinations are given on English expression, social studies, natural science, literary materials and general mathematics. In addition, the applicant must pass the examination on the Constitution of the United States and the State of Illinois.

A fee of \$5 is paid when the application is made, and \$5 when the diploma is issued. Tests are given at Joliet Central High School every other month, usually the first two Saturdays of the month. Applicants must attend both Saturdays to complete the test.

Further information can be obtained by calling Bucher's office at (815) 729-8466.

This may be just the kick in the pants you've been waiting for.

Nobody has trouble writing checks and making deposits. The trouble comes later, at the end of the month, when you have to figure just how it all adds up.

That's when you decide how well you are doing. Whether you're ahead of the game or behind. What happens then determines whether it's you managing your money, or your money is managing you.

It can be a terrible time of the month.

That's why we've introduced Topline, a new and simpler kind of bank account.

Topline combines your three basic banking accounts into one unified account. Your checking, your 4½% savings and your 5% Golden Savings account are all under one number. And they're reported to you monthly (including

monthly savings interest payments) on one unified statement.

That means without any extra bookkeeping you can see where you stand, month by month.

The information is stated in such simple terms, that if you don't like what you see, it's usually pretty obvious what you can do to change it.

Topline could be worth extra money to you in the long run. In the short run, it could get you started on some solid, family financial planning.

Topline. Know what you're doing with your money.

Toppen, popular figure, dies

MOKENA — Ray J. Toppen, a popular and respected figure in Mokena for many years, died Sept. 21, at his

home, 10911 Carpenter St., following a sudden illness. He was 51 years old.

Organizer of the Mokena Summer Baseball Program and its president for four years, Mr. Toppen gave a great deal of his time to promoting activities that benefited youngsters.

He was also active in the affairs of William Martin Post, VFW, and whenever the post was in need of raising funds it was to Toppen that it turned. He was an excellent organizer and was always ready to use his talent for local causes, especially those of a charitable nature. He helped many persons without anyone knowing about it.

In 1961 he was elected to the Mokena grade school board and re-elected in 1964. In 1966 he experienced heart

trouble and on advise of his physician resigned from the board.

When his health permitted he resumed many of his activities.

A native of Mount Greenwood, he entered government service in the treasury department. He was chief of the "E" Bond Division at the Chicago office for the past 12 years, during which he had resided in Mokena. Prior to coming to the Chicago office, Mr. Toppen was stationed in Wisconsin.

That Mr. Toppen was a popular figure in Mokena was attested by the fact that at the visitation last Wednesday night at Frankfort Community Chapel the place was filled and scores stood outside in the rain waiting for opportunity to enter and pay their respects.

Funeral services were conducted last Thursday from the Tinley Park Reformed Church, Mr. Toppen was of Dutch extraction. Interment was in St. John's Cemetery, Mokena.

Besides his wife, the former June Wheeler, Mr. Toppen is survived by a daughter, Barbara, Mrs. Stephen White, of Lockport, and a son, Ronald, a seventh grade pupil in Willowcrest School. Mr. White is a teacher in the Mokena school system and Mrs. White is teaching in the Valley View all-year school at Romeoville.

Also surviving are three sisters, Mrs. Bertha Ridderhoff, Mrs. Anne Nupter and Mrs. Grace VanDyken, all of Chicago, and three brothers, John, of Worth, Henry, of Alsip, and Gerald Toppen, of Chicago.

Christmas Seal chairman named

LEMONT Mrs. Walter Tedens, 37 Logan St., has been designated as the Lemont Christmas Seal chairman for 1970.

Her appointment was announced by this week by Frank J. O'Rourke, general Christmas Seal chairman for Chicago and suburban Cook County.

"Strong leadership by volunteers such as Mrs. Tedens has been a key factor behind the success of

Christmas Seal campaigns year after year," said O'Rourke.

Serving with Mrs. Tedens as co-chairman for Lemont will be Mrs. Glenn McAdam, 600 Warner Ave., and Mrs. Edna Nelson, 27 Logan St.

"Contributions to the annual Christmas Seal appeals have effectively decreased the threat of tuberculosis," said Mrs. Tedens. "When I first volunteered to be chairman for Lemont in

1944 there were over 4,600 new cases of TB reported in Chicago and more than 1,500 persons died each year. In 1969 there were 1,681 new cases and only 181 deaths. The same techniques which have proven so successful in the fight against TB, will be equally effective in the attack a-

gainst emphysema and other respiratory diseases as well as air pollution and smoking."

In Lemont Mrs. Tedens is a member of the American Legion Auxiliary and the Lemont United Methodist Church where she sings in the choir and participates in the women's group.

2 teachers selected for honor publication

LOCKPORT — Lloyd W. Harrell, Supt. of Education for District 205, announced that Mrs. Lydia Anne Heemstra and Miss Lorina Esther Goerz have been selected to appear in the 1970 edition of Outstanding Educators of America. Nominated earlier this year, they have been chosen for the awards publication on the basis of their civic and professional achievements.

The Outstanding Educators of America is an annual program designed to recognize and honor those men and

women who have distinguished themselves by exceptional service, achievements and leadership in education. Each year over 5,000 of our country's foremost educators are featured in this national volume.

Mrs. Heemstra is a Home Economics teacher at Lockport West High School. She has been with District 205 since 1963. Miss Goerz taught Mathematics at Lockport East. She retired at the end of the 1969-70 school year after 28 years with the district.

Jacobs appointed

Charles L. Brown, at left, president of Illinois Bell and chairman of the Illinois Citizens for Clean Water, recently named William Jacobs of Joliet, vice-chairman of the citizens group. They are leading the statewide campaign to secure passage of the \$750 million Anti-Pollution Bond Act November 3. Jacobs, the owner of Bill Jacobs Chevrolet in Joliet, will head a six-county organization and coordinate the drive to get out the 'yes' vote in Will, Grundy, Kendall, Kankakee, Iroquois and Ford counties. In announcing Jacobs' appointment, Brown said, "We have a big job to do to get this vital issue passed and I'm delighted that a man of Jacobs' ability and interest has agreed to take it on in this area." Brown added the only real "opposition" to the proposal is voter apathy.

Bremen gridders beat Lincoln-Way, 20 to 14

NEW LENOX — Lincoln-Way's football team is having another of its seasons. It lost last Saturday to Bremen, 20 to 14. This was the first win of the season for the Bremens so the results of last Saturday's outing made someone happy.

If the Knights could have just cancelled out the first half they would have had a fine day. Two fumbles, two interceptions and a blocked punt was the fate of the

Knights that first half. Bremen made two touch downs as a result of two of the bobbles, both coming in the second quarter so at the half Bremen led 14 to 0.

Lincoln-Way counted six points in the third period, when Dave Wright snared a 15-yard pass from Gregg Mundt to cross the goal line. The Knights, trying for all the points they could get attempted to convert by running but failed.

The Knights did score another touchdown in the fourth quarter on a 33-yard pass from Terry Ryan to D.J. Cruise, who made one of those picture book catches with nine seconds of playing time left. This time the try for two points was successful, with Ryan taking it in.

The only trouble, as far as the Knights were concerned, was that Bremen also scored in the final period. It failed to get any extra points but — as it turned out — didn't need them.

Lincoln-Way, a green outfit, looks better each outing and should jell before the season ends.

In other SWS games Sandburg beat Evergreen Park, 10-7; Rich East beat Oak Lawn, 30-8 and Reavis whipped Homewood - Flossmoor.

Schools get course for bicycle safety

SPRINGFIELD — Paul Powell, secretary of state, and Ray Page, superintendent of public instruction, announced at a joint press conference today a co-ordinated traffic safety program for elementary grades of public, parochial and private school systems in Illinois.

Bicycle Rules of the Road, a new booklet published by the secretary of state's office, will be used in conjunction with a bicycle and pedestrian safety program developed by Supt. Page for introduction into the school systems this semester.

Secretary Powell explained that Bicycle Rules of the Road is a driver's manual for bicycle riders.

"Although it is designed especially for boys and girls in the elementary school grades, it also contains information of interest to older riders. A chapter for parents informs them of their responsibilities and tells what they need to know to safeguard their children," Powell said.

Supt. Page commended Secretary Powell for recognition of the bicycle safety program and his initiative in developing Bicycle Rules of the Road, the first of its kind in the nation.

Sec. Powell explained that traffic laws, highway signs and traffic control signals apply to bicycles as well as to automobiles, and that safety rules will prevent accidents if they are carefully observed. Bicycle Rules of the Road explains these rules in a manner easily understood by school children as well as their parents.

Supt. Page explained the

procedure for distribution and use of the booklets in the schools. "With the approval and recommendation of the secretary of state, my office is supplying each school superintendent and principal with a sample copy of the official Bicycle Rules of the Road along with a letter of introduction explaining its purpose and emphasizing the need for its use. Each school will be asked to order as many copies as it may need through the Traffic Safety Department, Office of the Superintendent of Public Instruction. Each teacher will receive a teacher's guide as well as student materials to help implement the booklet in the classroom. An official bicycle rules of the road test will also be supplied for the teacher.

"In addition, the student will receive an official state certificate signed by both Mr. Powell and myself signifying his passing the knowledge test. In a sense he would be going through an analogous procedure that he will experience as a future automobile driver. We feel that this approach will give the bicycle safety program more status in the mind of the student as well as his parents."

Secretary Powell told how the idea of a bicycle book came to him while observing a children's traffic safety training park in Frankfurt, Germany during a visit in 1965. However, it was necessary to wait in initiating our program until 1969 when funds were made available by the Illinois Legislature.

Mrs. Borhauer is known for her work in developing a family life curriculum for schools in Southwest Cook County. She also conducts

inservice training workshops for area teachers and has authored and published a sex education pamphlet for parents of children with learning problems. A graduate of Chicago City Junior College and Little Company of Mary Hospital School of Nursing, Mrs. Borhauer was a public health nurse before coming to school District 126, 16 years ago.

On hand, in addition to Mrs. Hale, who conducts the junior high class, will be Mrs. Ellen Tubutes intermediate level teacher and Miss Helen McShane, primary level teacher. Special materials and equipment will be on display and the teachers will answer questions and explain the program.

Tax money distributed

SOUTHWEST — Nearly \$6 million dollars in tax payments collected by the County Treasurer's Office during August was distributed to 281 Will County taxing bodies Sept. 21.

Announcement that the \$5,849,425.41 had been distributed was made by W.F. "Wally" Schuetz, Will County Treasurer.

"This distribution represents payments on 1969 taxes paid in my office between August 1st and Sept. 1st, 1970," Schuetz explained.

Receiving the greatest share of the distribution according to Schuetz, is the county's school districts. The school districts will receive \$4,105,485.43, or about 70 per cent of the total amount distributed.

The single taxing body receiving the greatest amount is School District No. 86, with a total of \$788,535.72.

Receiving the smallest check is the Village of Godley Road and Bridge Fund for \$4.76.

Schuetz said funds are distributed to taxing districts on the basis of the total amount of taxes paid in his office by Residents of each district.

First, the blindfold . . .

A few basic directions . . .

And, we're off . . .

Text by Marge Ratcliffe

Photos by Carl Voss

This is the last of a three-part series by Paddock Crescent Newspapers on facilities for the blind supported by area Lions Clubs' Candy Day Oct. 9.

The downtown area of Pontiac, Michigan, is often filled with cries of "Phooey!" However, residents and shoppers go on about their business. They have become accustomed to the phrase and know it means either a Leader Dog or it's master has goofed.

Pontiac is the final training ground for advanced students at Leader Dogs for the Blind. I didn't progress quite that far.

My mini-course was confined to Rochester, Michigan, where the school is located. The "campus" is on the outskirts of town. We drove to the business area, equipped with a harness, a heavy blindfold, and "Bo," a retired Leader Dog.

The area most often used by the school is just a block from the town's main traffic pattern. . . a quiet tree-lined street. At the corner of this lovely block are unlabeled corners full of traffic.

Before we began, Paul Michaelson, assistant supervisor of training at the school, pointed toward a busy intersection, and told me that was the direction we were going. I look at it very carefully, trying to remember where everything was. . . be-

cause I thought I could get along all right if I quickly memorized the territory while I could still see it.

As soon as the blindfold was in place, I realized all my sneaky preparation had been in vain. I immediately forgot everything, including the direction I was facing. In the space of a few seconds, I became totally confused and felt completely lost.

Paul gave me instructions for handling Bo. . . forward, left, right, steady. . . (he didn't tell me then about phooey. . . which was probably just as well. . .) Then he took my arm and we were off.

I said, "Forward, Bo!" and put my right hand out to indicate the way I wanted to go. Hand signals are always used with commands. After we had walked along for a while, Paul said, "Marge, you can put your hand down now. . ."

There is so much to think about. "Am I walking in a straight line. . . why do I feel grass under my feet. . . WHERE is the corner?" Paul, at my side, kept talking softly. "You're doing fine. . . pick up your feet along here. . ."

Paul and I had known each other for about two hours. He didn't know I trip over blades of grass, and am known to my family as "Grace." While I may not be exactly clumsy, I have been known to fall up stairs. And somewhere ahead of us was an intersection.

We did reach the corner and Bo came to a stop. Paul told me to listen carefully, "read" the traffic, and when I was sure it

was alright, tell Bo to go ahead.

Paul explained the dog wouldn't move until I had placed one foot off the curb. He was right. As soon as Bo knew I had at least mastered that, he was ready to go all the way to the next curbing.

Once again, he stopped. . . and by then I had realized, he would go no further until my right foot was up on the curb. So, we went up and over with little difficulty.

Reading traffic is more difficult than you think. In the first place, if it all seems to come from the right and fade away to the left, you can almost assume it's a one-way street. Just when I had firmly decided that, a car zoomed past from the left to right. It is terribly confusing.

After you have gotten across an intersection, it is wise to pat the dog and tell him what a good job he's done. I told him with a great deal of feeling.

Although my trip was a short one, the dog responded beautifully, even passing up rows and rows of potted trees and fire plugs for which most dogs have an affinity.

Bo is one of a select crew of animals; even though he is now in "retirement," he has had intense training and learned all the dos and don'ts for a proper Leader Dog.

All the dogs are donated and approximately 85 per cent are rejected for one reason or another. If a person suddenly appears with his dog, Rover, he must sign an agreement with the school.

Rover may have been the best pet in the world, but if he is shy of traffic, is not very

friendly, won't climb stairs, and has other non-suitable habits, he will be rejected. The school will then find a good home for him, or he will be returned to the donor.

Bo was not rejected, and so after his acceptance, he was put into quarantine for 10-14 days. This is to make sure he does not have any disease. He was also tagged, by number, so the trainers are able to distinguish all the "Princes" and "Rovers" who pass through the school.

After the waiting period, when he was checked by a vet and given necessary shots, he moved to the initial part of a 12-week training program. Then, he began to work with a team of trainers.

There are four teams of three men each, who are constantly working with the dogs in various phases of training. During the quarantine period, they get to know the dogs and their temperament. Then they progress through two more stages, with more training.

Besides working with the dogs, the trainers also work closely with the students. They are with them all through the four-week training period, when students are in residence at the school.

When students arrive at the school, usually about 20 to a class, they spend the first few days with the trainers. They are taken to Rochester and taught to use the dog's harness with the trainer on one end and the student on the other.

During this period, the trainer learns to know the student on a personal basis and can determine how hard he will tug at the leash, the tone of his voice and his general personality.

Dogs and students are carefully matched. After Paul knows the student, he is able to give him a dog which will suit his needs, and his way of life.

After three days, the students are given a dog and they stay together constantly during the whole training period. Students live in a dormitory, and next to each bed is a chain where the dog is kept when the student sleeps. Togetherness is a key word at Leader.

There is no cost involved for the student, except transportation to the school, and "cigarette money" while there. Harold L. Pocklington, vice president and executive director, estimates the cost of a "unit" a dog and its master, runs about \$2,500.

The school's budget is nearly a half million a year, and is one of the main projects of Lions International. The school suffers from an identity problem, according to "Pock." Many people refer to all dogs who lead the blind as "seeing eye dogs," though they are actually, in many cases, Leader Dogs.

"Pock" said he finally realized things were coming around when he read, at the conclusion of a sports write-up in a Detroit paper, "it was obvious, the umpire needed a Leader Dog."

Through money collected during Candy Day, Illinois Lions have helped 256 Illinois students and 392 dogs (many are replacements) graduate from this remarkable institution.
